

CANCER RESEARCH AT MOFFITT (FACCA ATTENDEES)

Daniel Abate-Daga, PhD

Department: Immunology
Research Program: Immunology
Email: daniel.abatedaga@moffitt.org

- *CAR-T cells and TCR-transgenic T cell immunotherapy*
 - *Synthetic and systems immunology*
 - *Gamma/Delta T cells*
-

Maureen Ahearn FACCA Awards Coordinator

Department: Office of Sponsored Research
Email: Maureen.ahearn@moffitt.org

Srikumar Chellappan, PhD

Department: Tumor Biology
Research Program: Cancer Biology & Evolution
Email: Srikumar.chellappan@moffitt.org

- *Lung*
-

John Cleveland, PhD Associate Center Director

Department: Basic Science
Research Program: Cancer Biology & Evolution
Email: john.cleveland@moffitt.org

- *Oncogenic pathways controlling the development and maintenance of cancer*
 - *Targeted discoveries and validation in drug development*
 - *Hematologic malignancies*
-

Jose Conejo-Garcia, MD/PhD

Department: Immunology
Research Program: Immunology
Email: jose.conejo-garcia@moffitt.org

- *Immunology*
-

Marco Davila, MD, PhD

Department: BMT and Cellular Immunotherapy
Research Program: Immunology
Email: marco.davila@moffitt.org

- *Cancer immunotherapy*
 - *T cell signaling*
 - *Acute Myeloid Leukemia*
-

Kathy Egan, MPH, ScD

Department: Cancer Epidemiology
Research Program: Cancer Epidemiology
Email: Kathleen.egan@moffitt.org

- *Glioma, glioblastoma*
 - *Breast*
 - *Melanoma*
-

Fernanda Faiao-Flores, PhD

Department: Tumor Biology
Research Program: Molecular Oncology
Email: Fernanda.flores2@moffitt.org

- *Uveal melanoma*
 - *Epigenetics*
 - *Combinatory therapies*
-

Peter Forsyth, MD

Department: Neuro Oncology
Research Program: Neuro Oncology
Email: peter.forsyth@moffitt.org

- *Primary and metastatic brain tumors, Gliomas*
- *Leptomeningeal Disease*

- *Oncolytic viruses*
-

Anna Giuliano, PhD

Department: Cancer Epidemiology

Research Program: Center for Infection Research in Cancer (CIRC)

Email: anna.giuliano@moffitt.org

- *Hepatitis C*
 - *Human Papillomavirus*
 - *Cancer Prevention*
 - *CIRC Center of Excellence Director*
-

Clement Gwede, PhD, MPH, RN, FAAN

Department: Health Population Science

Research Program: Health Outcomes and Behavior

Email: clement.gwede@moffitt.org

- *Structure-Based Drug Design and Synthesis*
 - *Protein–Protein Interaction Inhibition and Regulation*
 - *Wnt Signaling*
-

Haitao (Mark) Ji, MD

Department: Drug Discovery

Research Program: Chemical Biology and Molecular Medicine

Email: Haitao.Ji@moffitt.org

- *Structure-Based Drug Design and Synthesis*
 - *Protein–Protein Interaction Inhibition and Regulation*
 - *Wnt Signaling*
-

Tom Joos

State Legislative Affairs Manager

Department: Government Relations

Email: thomas.joos@moffitt.org

Florian Karreth, PhD

Department: Molecular Oncology

Research Program: Basic Science

Email: florian.karreth@moffitt.org

- *Melanoma*
- *Non-coding RNA*
- *Mouse Modeling*

Nagi Kumar, PhD

Department: Cancer Epidemiology
Research Program: Population Science
Email: nagi.kumar@moffitt.org

- *Chemoprevention*
 - *Medical Marijuana in Cancer symptom management*
 - *Management of cancer treatment symptoms*
-

Nick Lawrence, PhD

Department: Drug Discovery
Research Program: Chemical Biology and Molecular Medicine
Email: nicholas.lawrence@moffitt.org

- *Medicinal and biological chemistry: Structure-based anticancer drug design*
 - *Immune modulation*
 - *Inducing protein degradation via PROTAC drug design*
-

Justin Lopchuk, PhD

Department: Drug Discovery
Research Program: Chemical Biology and Molecular Medicine
Email: justin.lopchuk@moffitt.org

- *Novel methods for amination*
 - *Design of covalent inhibitors*
 - *Total synthesis of bioactive natural products*
-

Conor Lynch, PhD

Department: Tumor Biology
Research Program: Cancer Biology and Evolution
Email: conor.lynch@moffitt.org

- *Skeletal malignancy*
 - *Metastasis*
 - *Breast/prostate cancer and multiple myeloma*
-

Mokenge Malafa, MD

Department: Department of Gastrointestinal Oncology
Research Program: Drug Discovery – Chemical Biology and Molecular Medicine
Email: Mokenge.malafa@moffitt.org

- *Biomarkers in early detection and prognosis of pancreatic cancer*
 - *Chemoprevention of GI cancers with a focus on pancreatic and colorectal cancer*
 - *Early phase translational clinical trials in GI cancers*
-

Merritt Martin Public Affairs Director

Department: Government Relations
Email: merritt.martin@moffitt.org

Kristie Moffett, MHA Sr. Director, Clinical Trials Office

Department: Clinical Science
Research Program: Clinical Trials Office
Email: Kristie.moffett@moffitt.org

- *Moffitt's Clinical Trials Office and Clinical Research Unit*
 - *Research Administration*
-

Sandy Moore Executive Assistant

Department: Research Administration
Email: sandra.moore@moffitt.org

Jim Mulé, PhD Associate Center Director

Department: Translational Science
Email: james.mule@moffitt.org

- *Immunotherapy*
 - *Cutaneous*
 - *Centers of Excellence*
-

Christine O'Connell, MMSc
Sr. Director, Laboratory Research Operations

Department: Research Administration
Email: christine.oconnell@moffitt.org

- *Administrative oversight of Moffitt's Shared Resources*
 - *Research Administration*
-

Jenny Permuth, PhD

Department: Population Science
Research Program: Cancer Epidemiology
Email: jenny.permuth@moffitt.org

- *Molecular epidemiology of gastrointestinal malignancies*
 - *Early detection*
 - *Racial disparities*
-

Christine Pierce, PhD

Department: Cancer Epidemiology
Research Program: Cancer Epidemiology
Email: christine.pierce@moffitt.org

- *Epidemiology*
 - *Microbiome*
 - *Lung, Head & Neck Cancers*
-

Damon Reed, MD

Department: Heme Oncology
Research Program: Sarcoma
Email: damon.reed@moffitt.org

- *Pediatric and young adult Sarcoma*
 - *Developmental Therapeutics in children and young adults*
 - *Team Science & Collaboration*
-

Uwe Rix, PhD

Department: Drug Discovery

Research Program: Chemical Biology and Molecular Medicine

Email: uwe.rix@moffitt.org

- *Drug repurposing through off-targets*
 - *Actionable targets and pathways in the tumor microenvironment*
 - *Lung cancer, melanoma*
-

Dana Rollison, PhD **Associate Center Director**

Department: Data Science

Research Program: Cancer Epidemiology

Email: dana.rollison@moffitt.org

- *Cutaneous papillomavirus and polyomavirus infections*
 - *Epidemiology of keratinocyte carcinomas*
 - *Epidemiology of myelodysplastic syndromes*
-

Matt Schabath, PhD

Department: Cancer Epidemiology

Research Program: Cancer Epidemiology

Email: matthew.schabath@moffitt.org

- *Lung Cancer*
 - *Early Detection*
 - *Radiomics*
 - *LGBT Research*
-

John Schatzle, PhD **Director, Basic & Population Science Shared Resources**

Department: Laboratory Research Operations

Email: john.schatzle@moffitt.org

- *Research Administration*
 - *Immunology*
 - *Data Science*
-

Stephanie Schmit, PhD

Department: Cancer Epidemiology
Research Program: Cancer Epidemiology
Email: Stephanie.schmit@moffitt.org

- *Colorectal Cancer and Adenomas*
 - *Genetics, Host Immunity*
 - *Health Disparities*
-

Ed Seijo, MS **Director, Translational Science & Biorepository Shared Resources**

Department: Laboratory Research Operations
Email: edward.seijo@moffitt.org

- *Biorepository*
 - *Cell therapies*
 - *Research Administration*
-

Tom Sellers, PhD **Center Director**

Research Program: Cancer Epidemiology
Email: Thomas.sellers@moffitt.org

- *Genetic susceptibility to ovarian cancer*
 - *Early detection biomarkers*
 - *Mammographic density*
-

Keiran Smalley, PhD

Department: Tumor Biology
Research Program: Cancer Biology and Evolution
Email: keiran.smalley@moffitt.org

- *Melanoma*
 - *Melanoma & Other Skin Cancers Center of Excellence Director*
-

Lowell Smith, MA
Sr. Director, Business & Communications

Department: Research Administration
Email: lowell.smith@moffitt.org

- *Office of Sponsored Research*
 - *Clinical Trials Budgets & Contracts*
 - *Cancer Center Support Grant*
 - *Communications*
-

Brian C. Springer, MHA
Associate Center Director

Department: Research Administration
Email: brian.springer@moffitt.org

- *Office of Sponsored Research*
 - *Clinical Trials Budgets & Contracts*
 - *Cancer Center Support Grant*
 - *Research Integrity*
-

Brad Thomas, CPA

Department: Finance
Research Program: Research Finance
Email: brad.thomas@moffitt.org

- *Research Finance and Budgets*
-

Shelley Tworoger, PhD
Associate Center Director

Department: Population Science
Research Program: Cancer Epidemiology
Email: shelley.tworoger@moffitt.org

- *Ovarian Cancer*
 - *Reduce morbidity and mortality from ovarian and breast cancers by enhancing risk prediction models and improving primary and secondary prevention recommendations using an integrative, multidisciplinary approach*
-

Susan Vadaparampil, PhD

Department: Population Science
Research Program: Health Outcomes & Behavior
Email: susan.vadaparampil@moffitt.org

- *Use of genetic and genomic technologies in cancer risk reduction and treatment decision making*
 - *Patient, provider, and systems based interventions to increase uptake of HPV Vaccination*
 - *Health disparities in cancer prevention and control*
-

Jamie Wilson Vice President

Department: Government Relations
Email: Jamie.wilson@moffitt.org

Ken Wright, PhD

Department: Immunology
Research Program: Immunology
Email: ken.wright@moffitt.org

- *B cell lymphoma transcriptional regulation*
 - *HDAC regulation of non-histone substrates*
 - *Enhancement of Natural Killer cell function*
-
